Dear Raffy:

This letter is to express our sincere thanks to you, Marcelo and your highly disciplined and committed team. We also, want to say that months have passed but everyday when we looked at our patio, porch and walkway we feel so proud. Thanks for the fantastic job you guys have done.

We signed up with another contractor who commenced work and didn't turn-up for two months. The sub-contractor took the money and left. Subsequently we called Elite, among various others, and got a quote. When Raffy came to measure and give a quote, his professionalism made us choose him instead. His team came as an angel to the site, which was left in a state of mess. Our past experience made us feel a little sceptical, but I have to say that Raffy & Marcelo demonstrated extreme professionalism, good ethics and creativity. So did their team who made us feel wow! They were well disciplined and trained. This is very rare in today's contractors' world. They did a marvellous job. Today, they made us feel that it is to our benefit that the earlier contract soured, because ELITE created DESIGN AND CHARACTER to our patio, porch and walkway. If not, we would have got stuck with just a blank square concrete stage and not a patio in our backyard.

We have no hesitation in recommending Elite Designed Concrete to those considering any type of uplift or change to their driveway, patio, porch and walkway as we have explored all types of quotes for inter-lock, landscape and stamped concrete. These gentlemen are worth the price.

We are now excited to hear the raving comments from our friends and family!

Thanks again Raffy, Marcelo and the team!

Jude & Dorathy
