Re: Elite Designed Concrete Inc.

We are pleased to write this letter of reference for Elite Designed Concrete Inc. This company is both extremely professional and honest.

The end product of patterned concrete patio and walkways (plus replacing our grass) is excellent and beautiful. It has greatly enhanced the curb side and backyard appeal and has been admired by our neighbours.

Besides the outstanding end result, Elite Designed Concrete was a pleasure to deal with during the entire process. From the initial quote, to the selection of colour and pattern, through to the end product, Raffy, Marcello and the crew were excellent and a pleasure to deal with. They were neat, quiet, considerate of the neighbours and kept us constantly informed of their progress and next steps. They were prompt and came to do the work exactly when they said they would. They worked diligently and consistently. Elite Designed Concrete finished the project in a timely fashion, as promised. This is a company made up of people who care and take pride in their work.

We would highly recommend them and strongly suggest that if you are considering a project for your home involving patterned concrete, you use the services of Elite Designed Concrete Inc. You will be glad that you did.

Sincerely,

Juda Salman and Marsha Gottesman
