Elite Designed Concrete Inc.

Raffy,

Just wanted to send this quick letter to you and your crew and thank you all for the fantastic job done on my porch & front walkway. Am absolutely and completely satisfied with the final product, and have already received many compliments on the wonderful look it adds to the front of my home.

I also wanted to thank you personally for your time spent from the initial quote on through to completion and greatly appreciated your patience and expertise, especially proposing to build a landing area as part of the walkway. I think it truly added much to the look.

I valued your commitment on doing the work on time and by the date promised and would certainly recommend Elite as your 'first and only stop' when shopping around for quality patterned concrete.

Sincerely,

Paul N Iacucci
