CENTRE FOR CHILDREN WITH AUTISM

November 19, 2005

To: Elite Designed Concrete Inc.

Dear Mr. Hanimyan,

Thank you for your gift-in-kind support for our Centre. Your contribution of time and materials to install a concrete platform at our facility was greatly appreciated. The work was done professionally and promptly, and we certainly appreciate the manner in which you invested your time and your expertise to help complete the final process of our centre's expansion. We have received many compliments by visitors and staff on your work.

Shining Through Centre for Children with Autism is a non-profit organization that was created by a small group of dedicated parents whose vision was to provide the best available therapy to as many autistic children in the community as possible. Shining Through provides direct Applied Behaviour Analysis (ABA) therapy to children with autism, and outreach services and support for their families. ABA therapy services are scarce in Ontario and extremely costly as they are not universally covered under Ontario's medical and educational systems.

At present, the Centre is funded entirely by fees paid by the parents of the children. Contributions such as yours help us keep our operating costs to a minimum and therefore allowing more funding for the programs and services provided by our organization.

Again, thank you very much for your contribution and for your support of Shining Through Centre for Children with Autism.

Yours truly,

John DeBartolo,  
Facilities Director
